**Subject:** Request for SPCC plans for Tailwater, Inc and Martin Oil Properties leases operating in the Garnett, KS area  
[spccbluebroch.pdf](#)  
[Model Contingency Plan.pdf](#)  
[Model SPCC Plan for Production facility.pdf](#)

This is to request copies of the Spill prevention, Control and Countermeasure Plans (SPCC) plans for leases owned and/or operated by Tailwater, Inc. and/or Martin Oil Properties near Garnett, Kansas.

I'm attaching and referencing information on the SPCC program and SPCC requirements (<http://www2.epa.gov/oil-spills-prevention-and-preparedness-regulations> ; <http://www2.epa.gov/oil-spills-prevention-and-preparedness-regulations/spill-prevention-control-and-countermeasure-spc-0> ) in the event that you are not familiar with the requirements. I'm also including an example of a model SPCC plan for a production site for your information. If you do not have plans for your lease operations please let me know what your plans and timetable are for getting the plans developed.

If you have any questions you can reach me by email or my office phone is 913-551-7924, my cell phone is 913-645-6449. I'm looking to do the inspections in the next couple weeks

thanks
